SUMMARY

I am Balasuriya, a Computer Science and Engineering student with strong skills in Coding, technical knowledge, Operating systems. I am deeply interested in software development and emerging technologies, and dedicated to applying my technical knowledge, coding skills, and problem-solving ability to achieve impactful results while continuously learning and growing.

EXPERIENCE

Intern - Python Full Stack Development

RTech Solution

06/2023 - 07/2023 Perambalur

Company involved in software solutions

- Gained hands-on experience in both front-end and back-end technologies
- Worked with tools and frameworks such as HTML, CSS, JavaScript, Bootstrap, Python, Flask, and MySQL

Intern - Full Stack Development

Training Trains

12/2024 - 01/2025 Erode

Training program focusing on Full Stack Development

- Gained hands-on experience in front-end technologies
- Worked with tools and frameworks such as HTML, CSS, JavaScript, Bootstrap

EDUCATION

Bachelor of Engineering Selvam College of Technology

Computer Science and Engineering CGPA : 8.07

2022 - 2026 Namakkal

HSC Percentage:76.28%

Government Higher Secondary School

2020 - 2022 Kavakkarapatti

SSLC Percentage:74.69%

Government Higher Secondary School

2019 - 2020 Kavakkarapatti

PROJECTS

Virtual Queue Management System

Virtual Appointment System

- The Virtual Queue Management System enables customers to join and track queues digitally, minimizing waiting time.
- It helps businesses manage appointments efficiently with real-time updates.

Transport Management System

Transport Management System

- Ensures efficient bus scheduling and route
- management for smooth campus transportation

Farm Management System

Cattle Farm Management System

- Helps efficiently track and manage cattle health,
- feeding, and farm operations through a streamlined digital platform

Prince AI Voice Assistant

Ai Voice Assistant

- Prince AI is a custom voice assistant that uses APIs for speech recognition and AI integration
- It perform tasks like reminders, weather updates, and app control.
